Albert Simons made the Whitney nominations on Thursday just after returning from Brookdale Farm, in New Jersey, where he had a talk with James Rowe, the manager of Harry Payne Whitney's racing and breeding interests in this country. The fact that he has put Discovery in the Norfolk, Jamestown and Monticello would seem to indicate that that hitherto unknown three-year-old amounts to something. three-year-old amounts to something. Palanquin wintered at Norfolk, and has developed into a likely sort of liree-year-old. He shows speed in his gallops and acts as though he might stick.

But interest in the Simons stable is focused upon the two-year-olds. He has more youngsters in his care just now than any other trainer in Amer-ica barring Louis Feustel, the handler of August Belmont's stable, and all of them will be uncovered here. Simons and his boss want to sell off

Cluster Springs, Va., March 15.—The warm weather of last week enabled the baseball candidates of cluster Springs Academy to do some Jively practice on the athletic field. Six members of last year's team were found in their places, while several old subs and many new men attracted attention by their clean work.

McComb, Kidd, Whaley, Old, Hinton and Edwards of last year, constitute a splendid working nucleus for a fast team.

At present the prospect is very bright, and the coaches expect to develop the best team ever turned out by the school.

The catching department seems to be well cared for. Captain Donohue is recognized as one of the best catchers in the country. Stewart caught in April 29-Chatham Training School,

is recognized as one of the best catchers in the country. Stewart caught in many games last year and can always be counted on to fill any breach behind the bat. Rothbrock and Payne are also catchers of experience.

It is not definitely known yet whether Donahue will handle the big mit or will play the short position. He worked at shortstop last year for nawhile, and showed up exceedingly well, and, while it is conceded that behind the bat is his regular position, he may be switched to the infield, not only because there are several good catchers on the squad, but because there is a shortage of first-class infielders.

The only veteran in the infield is Beetler for the property of the property

The only veteran in the infield is Peebles, first baseman, whose fielding average in 1912 was 997. Barker, Eurks. Waggoner, Lancaster and Thornton are all working out for positions on the infield, and if Domaine plays at shortstop, there will be only two positions to fill. Harrison, Colville and Noliey are the likely new men who are trying for the outfield. Turbyfill, who has played on the varsity for two years, will make his place, and Stewart may be worked in the gardens when he is not catching.

The first game will be on March 20, when Holy Cross is met in Lexington. The next day Washington and Lee will play Yale in Norfolk, and then the communications for open dates on the team will restrict the first state of the following schedule should be addressed to Manager Grant, Benedictine
